- Learning new thing
- Researching
- Designing
- Sport
- Cycling
- Reading book
- Listening

PROJECT EXPERIENCES

PNC Sport Club Website (17th Oct 2024 - 5th Nov 2024)
For this project, I had three members in my team. I was the Git manager and Coding. We created the website using HTML, CSS, SASS, and design mock-up as template with the Figma app.

Voice control music player (11th - 20th Nov 2024)
It is an Algorithm project that provided by school and focused on using voice to control the music player using TKinter of Python.

Software Deployment (31st Dec 2024 - 5th Jan 2025)
For this project, I worked individual and used Ubuntu server that I bought instance on AWS and hosted the WordPress website using Ubuntu server (Linux), command line, and also used MobaXterm for remoting the Ubuntu server.

Expense Tracker App (12th Jan 2025 - 26th Jan 2025)
In this project I had three members. I was a UI design, Git manager, and Coding too. We created an app that focused about Expense Tracker App by using HTML, CSS, JAVASCRPIT.

Virtual Company One (CV1) (25th Feb 2025 - 2nd May 2025)
It is a biggest project of our course, we built it like the real world project. We have 5 members in our team and found the client by ourself to build the system. We've built POS system by using PHP, MySQL, and JavaScript as the main programming language.
In our system we can :
- User login (Secure)
- Tracking the inventory
- Stock management
- Barcode scanner
- Tracking the profit, income, expense
- Language switching
- Dark more
- Alert message in telegram when product sold out
- Set up schedule in calendar and alert message in telegram

OTHER EXPERIENCES

- Join Transparency International of Cambodia event 03 Feb - 07 Feb 2023
- Exchange program between Cambodia & Singapore 09 Feb 2023
- Annual Youth Leader Event (AYLE) 12 Dec - 16 Dec 2023
- Cameraman school event (iOSS)

LANGUAGES

- **Khmer** [Mother Tongue]
- **English** [Intermediate]
